CONTENTS

Vol. 168, No. 1, September 1992

Combination of conventional and endotoxin-specific limulus tests for measurement of polysaccharides in sera of rabbits with experimental systemic candidiasis. *T. Miyazaki, S. Kohno, K. Mitsutake, H. Yamada, A. Yasuoka, S. Maesaki, M. Kaku, H. Koga and K. Hara* 1

Recovery of impaired motor function of the upper extremity after stroke. *R. Nakamura, S. Moriyama, Y. Yamada and K. Seki* 11

Postremission therapy without prednisolone improves survival in adults with acute leukemia. *S. Kawamura, Y. Tamai, M. Akiyama, J. Sakamoto, Y. Konuma, K. Fukushima, K. Tsushima, Y. Sawada, Y. Sakata and Y. Yoshida* 21

Inconsistent expression of glycolipid sulfotransferase activity between hepatoma and serum. *K. Kamio, T. Jin, S. Gasa, M. Ohhira, K. Honke, N. Kasai and A. Makita* 29

Analytical examination of oxidized free and esterified 7-ketocholesterol and related oxysterols in human plasma incubated with copper. *N. Tamasawa and K. Takebe* 37

Simulation of the profile of water, NaCl, and urea transport in the countercurrent multiplication system between thin ascending limb and inner medullary collecting duct. *Y. Hamada, M. Imai, T. Aoki, R. Suzuki and A. Kamiya* 47

Short Report

Coarse to fine hair conversion induced by zinc in C57/6J mice. *B.-H. Bay and K.-H. Sit* 63

Vol. 168, No. 2, October 1992

1. Chemical Carcinogenesis

1. **Analysis of human cytochrome P450 catalytic activities and expression.** *F.J. Gonzalez, C.L. Crespi, M. Czerwinski and H.V. Gelboin* 67
2. **Molecular genetics of the human cytochrome P450-dependent monooxygenases.** *C.R. Wolf, C.A.D. Smith, G. Smith, A.C. Gough, S. Bryant, N.K. Spurr and D.J. Harrison* 73
3. **A brief review of the *Ah* locus.** *A. Poland and C. Bradfield* 83
4. **Human fetal liver cytochrome P-450: Capacity to form genotoxic metabolites.** *T. Kamataki, M. Kitada, M. Komori, T. Yokoi and R. Kitamura* 89
5. **Specific expression of glutathione S-transferase Pi forms in (pre)neoplastic tissues: Their properties and functions.** *K. Sato, K. Satoh, S. Tsuchida, I. Hatayama, H. Shen, Y. Yokoyama, Y. Yamada and K. Tamai* 97

6. **Expression of Mn-superoxide dismutase in carcinogenesis.** *N. Taniguchi, M. Ishikawa, T. Kawaguchi, J. Fujii, K. Suzuki and T. Nakata* 105
7. **Human cytochrome P450IIE1 gene: *Dra*I polymorphism and susceptibility to cancer.** *F. Uematsu, H. Kikuchi, M. Motomiya, T. Abe, C. Ishioka, R. Kanamaru, I. Sagami and M. Watanabe* 113
8. **Role of intestinal microflora in metabolism of glutathione conjugates of 1-nitropyrene 4, 5-oxide and 1-nitropyrene 9, 10-oxide.** *T. Kinouchi, K. Kataoka, K. Miyanishi, S. Akimoto and Y. Ohnishi* 119
9. **DNA repair pathways in mammalian cells analyzed by isolation of ACNU-sensitive chinese hamster ovary cells.** *M. Numata, H. Hata, H. Tohda, A. Yasui and A. Oikawa* 123
10. **A possible involvement of DNA topoisomerase I in "caffeine effect" after ultraviolet irradiation.** *H. Tohda, J.H. Zhao and A. Oikawa* 129
11. **Inhibitory effects of antipromoters and radical scavengers on the promotion process in two-stage cell transformation.** *M. Semba, N. Inui and M. Yamada* 133
12. **Mass screening for neuroblastoma in Miyagi Prefecture.** *M. Itano, S. Morita, H. Fujie, Y. Ohashi, N. Minegishi, M. Minegishi, Y. Yamaguchi, T. Sato, S. Tsuchiya, T. Konno, Y. Hayashi, R. Ohi and H. Shiraishi* 137

2. Tumor Suppressor Gene and Nuclear Oncogene

13. **Mutations of the APC (adenomatous polyposis coli) gene in FAP (familial polyposis coli) patients and in sporadic colorectal tumors.** *Y. Nakamura, I. Nishisho, K.W. Kinzler, B. Vogelstein, Y. Miyoshi, Y. Miki, H. Ando and A. Horii* 141
14. **Multiple tumor suppressor genes in multistep carcinogenesis.** *A.P. Feinberg, L.A. Johnson, D.J. Law, S.E. Kuehn, M. Steenman, B.R.G. Williams, G. Thomas, C.R. Boland, S. Rainier and M. Koi* 149
15. **Phosphorylation of the antioncogene products and control of the cell cycle.** *T. Akiyama, T. Ohuchi, S. Sumida, S. Xu and K. Toyoshima* 153
16. **Mutations of the p53 gene and other genes involving in human colorectal carcinogenesis.** *R. Kanamuru and C. Ishioka* 159
17. **A novel general strategy for cloning tumor suppressor genes using radiation-reduced chromosomal superfragments.** *M. Koi, L.A. Johnson and A.P. Feinberg* 167
18. **Fos and Jun: Oncogenic transcription factors.** *T. Curran* 169
19. **Complex regulation of a tumor marker expression. Enhancer and silencer of the GST-P gene.** *M. Muramatsu, M.B. Diccianni, S. Morimura, T. Suzuki and M. Imagawa* 175
20. **Possible involvement of nuclear oncoproteins in regulation of DNA replication.** *M. Asano, H. Ishikawa and Y. Ito* 183
21. **Transcriptional control by *myb* oncogene product.** *S. Ishii, T. Nomura,*

C. Kanei-Ishii, H. Nakagoshi, T. Sudo and T. Sawazaki 189

22. **Regulation of myc: Max complex formation and its potential role in cell proliferation.** *E.M. Blackwood and R.N. Eisenman* 195
23. **Role of c-myc on erythroid differentiation.** *Y. Ohmori, J. Tanabe, M. Terashima, W. Shoji, S. Takada and M. Obinata* 203

3. Characteristics of Tumor Growth

24. **Functional role of glycosphingolipids in tumor progression.** *S. Hakomori* 211
25. **Multiple forms of mammalian sialidase: Altered expression in carcinogenesis.** *T. Miyagi, K. Hata, K. Konno and S. Tsuiki* 223
26. **The IL-2/IL-2 receptor system: Involvement of a novel receptor subunit, γ chain, in growth signal transduction.** *K. Sugamura, T. Takeshita, H. Asao, S. Kumaki, K. Ohbo, K. Ohtani and M. Nakamura* 231
27. **The molecular biology of lung cancer.** *A.F. Gazdar* 239
28. **Detection of DNA aberrations in human cancers by single-strand conformation polymorphism analysis of polymerase chain reaction products.** *Y. Murakami, Y. Suzuki, Y. Kishimoto, S. Hirohashi, K. Hayashi and T. Sekiya* 247
29. **Development of the human colonic adenocarcinoma from adenoma as a histopathologically continuous process.** *F. Tezuka, R. Chiba, N. Iwama and T. Takahashi* 257
30. **Overexpression and amplification of α-PDGF receptor gene lacking exons coding for a portion of the extracellular region in a malignant glioma.** *T. Kumabe, Y. Sohma, T. Kayama, T. Yoshimoto and T. Yamamoto* 265
31. **Immunohistochemical identification of transforming growth factor-β and its binding protein in human gastrointestinal carcinoma.** *T. Mizoi, H. Ohtani, S. Matsuno and H. Nagura* 271
32. **A Ca^{2+}-independent protein kinase C, nPKCη: Its structure, distribution and possible function.** *Y. Hashimoto, S. Osada, S. Ohno and T. Kuroki* 275
33. **Alteration of the level of protein phosphatase 2C (IA) mRNA during the course of differentiation of skeletal muscle cells.** *S. Ohishi, T. Kobayashi, T. Terasawa, T. Murakami, M. Onoda, S. Tsuiki and S. Tamura* 279
34. **A novel steroidogenic role of suramin-blocked luteal cell growth factors.** *R. Asakai, K. Tamura and R. Okamoto* 283
35. **Heparin-binding (fibroblast) growth factors are potential autocrine regulators of esophageal epithelial cell proliferation.** *M. Katayama and M. Kan* 287
36. **Thymidine kinase activity in familial adenomatous polyposis.** *S. Sakamoto and R. Okamoto* 291
37. **Characterization of experimental rat nephroblastoma and its cell line.**

Y. Nagashima, Y. Miyagi, K. Sumino, Y. Ohaki, M. Umeda, M. Oshimura and K. Misugi 303

38. **Flow cytometric DNA analysis of lung cancer cell lines.** *S. Okada, S. Kobayashi, H. Inaba, N. Sato, T. Hasumi, W. Shoji, H. Yoshida and S. Fujimura* 307

39. **Cell kinetic study of murine jejunal crypts during multiple doses per day.** *Y. Abe, J. Takahashi, H. Fukuda and K. Yoshida* 311

40. ***N*-(F-18)-fluoroacetyl-D-glucosamine: A new positron labeled pharmaceutical for cancer study.** *T. Fujiwara, K. Kubota, M. Tada, M. Itoh, T. Sato, R. Iwata, K. Sato, J. Takahashi, Y. Abe, H. Fukuda and T. Ido* 317

41. **New strategies to establish human monoclonal antibodies.** *T. Kudo, H. Saeki, S. Saijyo, N. Sato, M. Numasaki and T. Tachibana* 323

42. **Diagnostic use of anti-modified nucleoside monoclonal antibody.** *K. Itoh, S. Ishiwata, N. Ishida and M. Mizugaki* 329

4. New Aspects of Cancer Therapy

43. **Marrow transplantation in cancer therapy.** *C. Anasetti and J.A. Hansen* 333

44. **Allogeneic bone marrow transplantation for malignant hematologic disorders in children.** *S. Tsuchiya, M. Minegishi, H. Fujie, N. Minegishi, Y. Ohashi, M. Itano, S. Morita, Y. Yamaguchi, T. Sato and T. Konno* 345

45. **Selective anti-gene therapy for cancer: Principles and prospects.** *J.S. Cohen* 351

46. **Basic approach to application of liposomes for cancer chemotherapy.** *Y. Hashimoto and S. Suzuki* 361

47. **Monoclonal antibody-drug conjugate therapy for the patients with colorectal cancer.** *T. Takahashi, T. Yamaguchi, K. Kitamura, A. Noguchi and M. Honda* 371

48. **Characterization and the clinical application of cultured human pulmonary carcinoma cells.** *S. Kobayashi and S. Fujimura* 375

49. **Control of growth and differentiation of philadelphia chromosome-positive leukemia cells by tyrosine kinase inhibitors.** *Y. Honma, T. Kasukabe and M. Hozumi* 387

50. **Protein kinase C activity in human leukemia cell lines with reference to sensitivity to antineoplastic agents.** *S. Sugawara, N. Kumano, Y. Saijo, S. Suzuki, Y. Numata, G. Sato and M. Motomiya* 393

51. **Tumor localization and biodistribution with radiolabeled monoclonal antibody against pancreatic cancer in tumor-bearing nude mice.** *Y.S. Chung, T. Sawada, Y. Kondo, J.J.L. Ho, Y.S. Kim and M. Sowa* 397

52. **A possible role of activated macrophages in the adoptive immunotherapy using $CD4^+$ T lymphocytes.** *K. Yoshida and T. Tachibana* 403

53. **The difference in immunological properties between lymph node**

metastatic and non-metastatic cell lines of MCA-induced fibrosarcoma of C4W mice. *H. Oguri, Y. Sato, H. Sugawara, K. Yoshida, T. Nishihira, S. Mori and T. Tachibana* 409

54. Augmented accumulation of transferred lymphokine-activated killer (LAK) cells at murine tumor sites through production of LAK-attractant facilitated by chemotherapy. *M. Hosokawa, Y. Wakizaka, Y. Kuramitsu, M. Micallef, Y. Togashi and H. Kobayashi* 413

55. The role of complement receptors in tumor cell destruction. *T. Okuda and T. Tachibana* 417

56. Antitumor activity of new antitumor substance, polyoxomolybdate, against several human cancers in athymic nude mice. *H. Fujita, T. Fujita, T. Sakurai, T. Yamase and Y. Seto* 421

57. Chemotherapy in small cell lung cancer — From view point of dose intensity —. *Y. Nakai, S. Koinumaru, S. Suzuki, J. Saito, S. Sugawara, Y. Numata, J. Sato, N. Matsubara and M. Motomiya* 427

58. Which postoperative combined therapy results in the best prognosis: Radiochemocytokine therapy or aggressive chemotherapy? *T. Nishihira, K. Hirayama, T. Akaishi, R. Shineha, A. Okayama and S. Mori* 431

59. Tumor radiotherapy monitoring with radioscintigraphy tracers: A comparative study with multiple-tracer technique. *K. Kubota, K. Ishiwata, S. Yamada, R. Kubota, M. Tada, T. Sato and T. Ido* 437

60. Mechanisms for appearance of no-flow areas in tumor microvascular bed. *K. Hori, M. Suzuki, S. Tanda, S. Saito, Q.-H. Zhang and M. Shinozaki* 441

61. Impacts of the evolutionary concepts of cancer on the study of human diseases. *S. Okuyama* 445

Vol. 168, No. 3, November 1992

Study of neovascularization of the jejunal graft—A new animal model. *L.T. Araki, S. Ebihara, T. Nakatsuka and K. Harii* 449

Anatomical study of preaxial polydactyly in 158 hands. *S. Islam, I. Oka and S. Fujita* 459

Characterization of human thymic lymphocytes forming rosettes with stromal cells. *S. Nonoyama, M. Nakayama, J. Abe, T. Kohsaka, N. Kobayashi and J. Yata* 467

Anesthetic influences on myocardial and hepatic energy metabolism in hemorrhaged spontaneous hypertensive rats. *S. Kashimoto, A. Nonaka, T. Nakamura and T. Kumazawa* 475

Polysaccharide-coated liposomal amphotericin B for the treatment of murine pulmonary candidiasis. *T. Miyazaki, S. Kohno, K. Sasayama, Y. Inoue, K. Hara, M. Ogasawara, T. Sato and J. Sunamoto* 483

Detection of human papillomavirus DNA in normal epithelium and in

squamous metaplasia of the uterine cervix by the polymerase chain reaction. *R. Konno, S. Sato and A. Yajima* 491

Synovial fluid ferritin in traumatic hemarthrosis, rheumatoid arthritis and osteoarthritis. *E. Abe and M. Arai* 499

An improved method of bronchial stump closure for prevention of bronchopleural fistula in pulmonary resection. *M. Sato, Y. Saito, N. Nagamoto, C. Endo, K. Usuda, S. Takahashi, K. Kan'ma, M. Sagawa, S. Ota, T. Nakada and S. Fujimura* 507

Effects of massive small bowel resection on metabolism of bile acids and vitamin D_3 and gastrin release in dogs. *M. Imamura and H. Yamauchi* 515

Functional abnormalities of circulating natural killer cell subpopulations in patients with dilated cardiomyopathy. *T. Kanda, T. Yokoyama, T. Suzuki and K. Murata* 529

Vol. 168, No. 4, December 1992

Long-term results of pylorus-preserving gastrectomy for gastric ulcer. *I. Sasaki, K. Fukushima, H. Naito, S. Matsuno, T. Shiratori and T. Maki* 539

Immunohistochemical study of the sympathetic and sensory innervation to the blood vessels of the dog forepaw. *T. Tsuruta, S. Masuko and H. Watanabe* 549

Purification of a new anticoagulant protein, calphobindin III, from human placenta. *H. Sato* 561

Changes of fibronectin in the right and left ventricles of rats exposed to chronic normobaric hypoxia. *Y. Xu, K. Shiraishi, M. Mori and M. Motomiya* 573

Methods of semen preparation for intrauterine insemination and subsequent pregnancy rates. *P.M. Zavos and G.M. Centola* 583

Locoregional control for esophageal carcinoma treated with irradiation following surgery. *J. Watarai, T. Kato, M. Kobayashi, Y. Seino, M. Kitamura and S. Abo* 591

Three monoclonal antibodies against human LFA-1 α and β chains with different biological activities. *Y. Ohashi, M. Minegishi, S. Tsuchiya and T. Konno* 599

Eucapnic hyperventilation-induced bronchoconstriction in rabbits. *S. Koyama, A. Ohtsuka and T. Horie* 611

Short Report

Effect of methylene blue on the vesicourethral function in the rats. *O. Nishizawa, T. Kawahara, N. Shimoda, K. Suzuki, N. Fujieda, T. Kudo, T. Suzuki, H. Noto, T. Harada and S. Tsuchida* 621
